### Project

#### OurPlant / Team Leader

2021.08 ~ 2022.06

Planterior information sharing web service that pursues an eco-friendly lifestyle.

- Planned Project and Designed Architecture
- Established Project Development Tasks and Roadmap
- Developed Automatic Search Completion and Image Lazyload using JQuery
- Developed KakaoTalk Sharing Feature using JavaScript
- Developed Automatic Logout
- Deployed the Application and Managed Server and Database (AWS EC2, RDS)
- Managed Domain connection
- Created and Managed Domain Mail (AWS SES)

#### CareShare / Team Leader

2021.11

Medical aid sharing platform for the disabled and the elderly (23rd E-Daily Economic Universiade winning project)

- Planned Project and Designed Architecture
- Developed Membership Registration Feature, Membership Modification Feature, and Social Login

### **Senapul / Team Leader**

2022.02 ~ 2022.08

Mobile app for managing gardening logs (9th Conference of TAVE winning project)

- Planned Project and Designed Architecture
- Established Project Development Tasks and Roadmap
- Wrote API Statement
- Developed Like/Unlike Feature, Membership Withdrawal Feature and Plant Diary Discovery Feed

### **OpenMap / Team Leader**

2022.03 ~ 2022.06

Web service that shows the status of restaurants, cafes, and hospitals around users.

- Planned Project and Designed Architecture
- Established Project Development Tasks and Roadmap
- Connected Kakao Map API
- Developed Search Filter, View of Business Details, Custom Markers by Business Hour and MyPlace Registration Feature

### **CI/CD Pipeline Automation Project / Team Leader**

2022.09 ~ 2022.12

This project was conducted while I was taking the "Open-Source Software" course in the fall semester of 2022 at Sungshin Women's University, and is not a project focused on web services, but on building CI/CD pipelines.

- Developed Chatting Feature using Socket.io
- Set Docker Container Environment for Node.js Server
- Set Jenkins Server Inside Docker Container
- Implemented Kubernetes to GCP Using GKE
- Set Connection Between Jenkins and GKE for Automated Deployment
- Set Container's Liveness Probe and Readiness Probe

---

## **Education**

---

### **Sungshin Women's University / B.S in Computer Engineering**

22020.03 ~ Current / Seoul, Republic of Korea

**GPA 4.33/4.50**

---

## **Awards & Scholarship**

---

### **23rd E-Daily Economic Universiade / KG Inicis CEO Award**

2021.11

### **TAVE 9th CONFERENCE / 2nd Prize**

2022.07
